

Hi %FIRSTNAME%

I see so many women entrepreneurs who think that they have to be PERFECT to become more visible online.

I get it, I used to think like that too -

I thought...

> "I need to lose 10 lbs before I can have that photoshoot."

> "I need to spend more money on beauty products before I look good enough to shoot those Facebook live videos."

> "I will build up my Instagram following once I have more stylish outfits, or when I am traveling more... "

> "I will wait for a good hair day to shoot that video."

Can you relate?

"After all," I thought, "My life / business / appearance isn't enough yet!"

Do you see the limiting belief?

(HINT: It is rooted in "I am not enough".)

I am here to say...

HOGWASH!

You ARE enough, JUST AS YOU ARE!

YOU ARE BEAUTIFUL NOW.

People deserve to see YOU. People deserve to know what you have to offer. It's time to get over the fear of NOT BEING ENOUGH, to get past the beauty myth.

Know that you don't have to wait to be perfect to become visible in your biz, in fact it's IMPORTANT that you don't!

ALL of the above excuses are rooted in FEAR.

And the ONLY way I was able to break out of the limiting belief and become a successful brand Photographer was because I made a start BEFORE I felt ready. That is the SECRET.

Besides , beauty is in the eye of the beholder, don't you agree %FIRSTNAME%?

We are beautiful just because we are children of God / The Universe (or whatever you believe in).

Perfectionism is another form of procrastination - It keeps you stuck.

Besides, how are your clients going to find you if they can't see you?

SO NOW, it's time to break FREE of this limiting belief and BECOME VISIBLE!

Are you ready to get visible and start getting clients and momentum in your business?

Want some help?

I've developed a proven system to support you to get over this 'not enough' limitation. To get CONFIDENT in your own beauty and get out there in front of your clients - I'd like to share it with you.
